

← 2 levels

Where does it go?

Life skills, matching, & classifying

Prep & Directions

This is a set of classifying activities to help students classify items that belong in a specific setting. Settings included are bathroom, kitchen, dining room, laundry room, living room, bedroom, park, and playground. Students will determine where each item goes and Velcro the item picture cards underneath the correct scene.

This set includes 2 levels. Level 1 includes scenes that include all of the items that match the item picture cards. This makes matching the appropriate picture cards simple for students working on matching or students just learning household classifying skills.

Level 2 includes scenes that eliminate the items from the scenes, making it more challenging for students that are ready for higher level classifying.

Print and laminate pages 3 - 22 on cardstock. Cut the cards out on pages 21-22 and place a small piece of Velcro (rough side) on the back of each one. Now place a small piece of Velcro (fuzzy side) on each dot below the scenes on pages 3 - 20. If you are using level 1 and 2 at the same time, print 2 copies of pages 21-22.

Enjoy!
